Consumption Cured.

An old physician, retired from active practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having thoroughly tested its wonderful curative powers in thousands of cases, feels it his duty to make it known to his suffering fellows. Actuated by this motive, and a conscientious desire to relieve human suffering, he will send *(free of charge)* to all who desire it, this recipe, with full directions for preparing and successfully using. Sent by return mail by addressing, with stamp, naming this paper, DR. W. C. STEVENS,
Munroe Block, Syracuse, N. Y.

A Widely Applicable Remedy.

Few remedies are applicable to such a wide range of disorders as Hostetter's Stomach Bitters, and this not because it has special properties adapted to the cure of each—such a pretence would be manifestly absurd—but on account of its wonderfully improving effect upon the general tone of the system, and its alterative action upon the organs of nutrition, secretion and discharge. Besides its well known properties as a remedy for intermittent and remittent fevers, dyspepsia, constipation, torpidity of the liver, general debility, urinary and uterine difficulties, it invariably proves to be highly serviceable in overcoming anæmia, hypochrondria, rheumatism, insomnia, and many other disorders and disabilities originating in poverty or impurity of the blood, nervous weakness or over-excitement, or an imperfect performance of the physical functions.

IT IS SELDOM THAT WE NOTICE anything in the medical line, nor would we now, unless we could be convinced that we are not doing our duty as journalists in recommending to the public the celebrated botonical preparations of Dr. Henry. Whoever induces the victim of Scrofula or any other disease of the blood, to use Dr. Henry's Extract of Sarsaparilla, has begun a good work. There can be no question as to the result of this medicine if persevered in. It is a sure cure for Scrofula, Rheumatism, Salt Rheum, and indeed all complaints arising from vitiated and impure blood. It is just what a good physician would prescribe for these complaints, and we confidentially recommend it as being the best article now in use. Dr. Henry's Cough Balsam is the most effective remedy for any affections of the Throat or Lungs that we have ever known. It contains no deleterious drugs, and can be taken with impunity and certainty of relief. For the cure of Coughs, Colds, Sore Throat, etc., it stands without a rival. Dr. Henry's Linament as an all-viator of pain, is unrivalled by any preparation before the public; the most skeptical will be convinced by a single trial. It will prove itself a "friend in need" which no family should be without

The County Court issued a special venire to-day for a grand jury to act in the matter of the People vs Gates, and such other matters as may come before them. No other business was transacted.

It is said that peaches, grapes and melons from Agua Caliente rancheria, near Seven Palms on the S P R R, will be in market in a few days. These fruits are six weeks earlier at the above point than anywhere else in California.

Prof. Lemmon and Drs. Parry and Palmer, who have been operating in this portion of the State for some time on behalf of the Smithsonian Institute are making arrangements to pay a visit to the summit of Mount San Bernardino.

An Irishman named John Lane, who has been working on the S P R R was brought into the city from the front to-day suffering with a very severe knife wound in his left arm. He says a drunken Indian inflicted the damage, because of his (Lane's) refusal to treat the noble red man. He was furnished with quarters in the County Hospital. The wound is a very severe one and it seems strange that Lane escaped bleeding to death.

Marrying Intemperate Men.

In a case of divorce heard by the Franklin County Court, Vermont, on Wednesday, divorce was asked for on the ground of intolerable severity, and wat refused for the time being. The St. Albans Messenger gives the following account of the result: "The evidence showed gross ill-treatment of the wife, the petitioner, by the husband when intoxicated, and that he was frequently in that condition. At the hearing the Court asked the petitioner the wife, if she knew when she married her husband that he was a drinking man, and she replied that she did. After the evidence was in the Court remarked that they were not prepared to grant a divorce at the present time, but wished to consider the case, and they were inclined to think that when a woman marries a drinking man with full knowledge of his habit, she must stand by the risk she was knowingly taking, and that a divorce should not be granted on the ground of abuse by the husband while intoxicated, he at other times treating her well. On the coming in of the Court this morning they further commented on the case, and the rule that in the minds of the Court should be applied in such cases, and said that in this case the habit in the husband has become so gross, having grown upon him during the five years that the parties have been married, and the wife has suffered so much from him, that they would grant the divorce in this case."

Got Mixed Up.

[Detroit Free Press.]

Fifty years old if a day, and her name was Eliza Fox. She lives on National Avenue, and she made a trip to the Eastern portion of the city to get a recipe for making cake. She got the recipe, got some beer, and got in the station, and she wasn't half as anxious about her case as some of the audience. She slowly followed Bijah out, musing:

"Use about a pint of flour, put in a chunk of butter about as large as a walnut, and break in—"

"Now, then," interrupted his Honor, "this looks bad to see a woman of your age here."

"Well, I had some beer," she softly replied; "and break in four eggs, grate in your lemon-peel, stir well, and bake in a hot oven."

"What have you to say about this case?" asked the Court.

"Nothing. Yon can do all the talking—quart of flour—four eggs—lemon peel—nutmeg—hot oven."

"You were never here before?"

"I don't remember that I was. Will you take a recipe down for me before I forget it?"

"I've got a recipe for ending drunkenness," said his Honor.

"I don't want it; and after the cake has baked for fifteen minutes, remove from the oven and put on your frosting."

"Do you want to go to the House of Correction?" queried the Court.

"No, sir, I don't. What do I want to go tramping up there for?"

"But you were so sadly intoxicated that the officer had to hire an express wagon to bring you down here."

"Is that so? Then I came here by express, did I? Was I packed in a box?"

"You must be very careful in future. It's a bad thing for a woman to get drunk."

"No worse than 'tis for the man; and after the frosting is on, set the cake back in the oven for three or four minutes."

"Will you promise me?" asked the Court.

"Yes, I'll promise!" she angrily exclaimed, "but I wish you wouldn't talk so much—you put me all out!"

She stood off and glared at his Honor, and then, tapping her finger on the railing, continued:

"You take about a quart of flour—about a quart. You put in a hunk of butter about as big as a walnut, and you break in three or four—"

"You may break out," said the Court.

"Well, I will. I want to get somewhere where I can write down that recipe before I forget it."

She pushed her way through the crowd to the door, and as she stepped out she was heard muttering:

"Quart of flour—four eggs—five minutes!"

Disinterested advice is a good thing. Long John Wentworth, ex-Mayor of Chicago, is entirely bald, except a little tuft of hair at the base of the brain behind the ears, and on one occasion when riding on the cars, he frequently took off his hat and scratched back of his ears, when a waggish backwoodsman shouted out, "Stranger, drive 'em up into the clearing, and you can catch 'em all in five minutes!" If Wentworth didn't see anything to laugh at the other passengers did.

The appointments made yesterday are not only the greatest sensation but the most important event which has yet happened in connection with the Presidential canvass. Latterly there has been wobbling in the party. The President's action yesterday is a command from headquarters to combine Republicans. Every one of these appointments has that object.

Journalism.

It seems almost superfluous to allude to the legitimate duties of the press, as in contrast with what may properly be termed journalistic malfeasance. The intelligent public will make its own discrimination, and the day is not far off when popular sentiment will sustain the one, and in the most decided manner condemn the other. News is one thing, personal scandal and defamation of character is another. The *Call* of the 20th, alluding to the late scandal from Monterey which another cotemporary published to the mortal ruin of the daughter of a citizen of Monterey remarks that such an act is severely reprehensible. A journal has no right to publish a scandalous, anonymous communication any more than it has editorially to attack the personal character of an individual. The act alluded to it is true resulted in a tragical termination and may be regarded as an extreme case, yet it is an illustration, that may be borne in mind, of what illegitimate journalism may do. In all such cases where there is no real remedy at hand to acquire adequate redress, there seems to be no chance for relief except for journals that claim to possess a regard for respectability to endeavor to so educate public sentiment, as to lead to the frowning down and crushing out such a system. There is an ample field for the legitimate, but of late it must be confessed, to the shame of the present age and generation, a sort of craving for the sensational and scandal-bearing press. By popular support a door is being opened that will introduce into our social experiences a depraved sentiment which, if encouraged, will lead to the most disastrous consequences. It is time that our intelligent citizens began to be discreet in their patronage. It is a matter worthy of consideration.

The Centennial.

We most cordially endorse much that the *Alta* says in regard to the Centennial, and our representation in Philadelphia in condemning the action, or rather the non-action, on the part of our last Legislature in regard to the Centennial appropriation asked for, but we do not accept it as just on the part of our contemporary to lay the blame upon the Democratic party. The original request from the Commissioners was for fifty thousand dollars, and the Senate, before whom the bill first came, from an economical point of view, passed a bill granting an appropriation for twenty-five thousand dollars. This change was supported by both Democrats and Republicans, and we think both were in error in their action; but it was not a partizan movement, for in the Senate the original proposition, which we think was modest, had as many ardent advocates among the Democrats as among the Republican members. Yet a morbid mania for economy defeated the measure. The attack upon the Democratic party on the ground of a lack of patriotism is ungenerous and uncalled for in the extreme. In the Assembly the amended, or rather the reduced proposition, was defeated, it is true, but many of the ablest and most faithful of the Democratic representatives voted in favor of the measure. There were many in that body who contended that the State could not afford to levy a tax upon the people to make a display at Philadelphia, and while we do not agree with that notion, we can but commend the public spirit of many who held this opinion when they offered to contribute from their private means toward the creation of a fund for Centennial purposes. The idea prevailed with the majority that our State should be represented, but they failed to recognize the fact that the small sum of fifty thousand dollars was but a trifle in itself, inasmuch as it would simply be a nuclues for the formation of a proper popular contribution which they favored. We fully agree that a blunder has been committed, but the error is not attributable to the Democratic party. In point of fact California is the genuine Centennial State. Her existence, which began with the last quarter of the century is a living testimonial to the advancement of the last hundred years, in art, civilization, literature, commerce and all that contributes to the well-being of mankind. Our population is purely cosmopolitan, and whether recognized or not by the elder members of the Union, she has contributed in her brief existence more toward the general prosperity of the world, in many respects, than any other State during its existence of a century. Her population is composed of the bone, sinew, muscle and intellect that sprung from the development of three-quarters of a century of education. Her fields furnish food for nations, as statistics will show, in manufacures she equals the ancient East, in art she has produced the second finest painting that has been exhibited to mortal gaze during the century. Her capital has furnished the means that has opened up the wealth of our sister State in the great "bonanza." The seas are covered with every article of production that the enterprise of our people have brought forth from nature. And yet at the grand celebration of the century, we are standing, as it were, alone, without a proper representation where the eyes of the world are looking for a demonstration of the great idea of American progress. The *Alta* is in error in charging this grave mistake to the Democracy; it was a common blunder, and we are not surprised that the friends of progress at the East are disappointed at the want of patriotism exhibited by our legislators. We surely have made a mistake. The following explains itself:

OFFICE OF THE U. S. CENTENNIAL COMMISSION, 903 Walnut street, Philadelphia, May 9th, 1876.—*J. Earl, Esq., Member Pacific Coast Centennial Committee*—DEAR SIR.—The chemist of the Agricultural Department, on the fifth inst., informs me by letter, "That in the collection of soils, fertilizers and vegetable productions, beet sugar productions are wanting." It has occurred to him that probably our State can supply the deficiency; he has been unable to supply such specimens from any other source, and if we can render him any assistance in this particular he will be extremely grateful. Such is a copy of his letter, and if you can supply, I hope that you will at an early date. Send on to my care."

Every foreign State is doing wonders in their exhibits. The United States is doing comparatively nothing, and California still less. There are but three or four in position, and everything is in great confusion, and will be for a month. I have been searching for four days for California products, but in vain. I find wine of one house, some minerals and grain. Where is the Grangers' grain? Are they doing nothing? I have the promise of a place for the sheap shearer to-day, and for any other useful machine; but they must be of the first quality. The house is progressing fast. It makes a fine appearance. We hope to have something in it soon.

I hear that W. H. Martin is coming as the agent of California. Why! he cannot be recognized. The Governor of Michigan came this day, authorizing four gentleman to come and take charge of their products and report, although under the seal of the State they cannot be recognized. The Centennial Commission alone has such appointments.

I will attend to all things and hope I may give satisfaction, but, for goodness sake, send us something to exhibit. Yours, J. D. CREIGH.

MR. ROBINSON has retired from the management of the land department of the Central Pacific Railroad Company, and Mr. JEROME MADDEN has been appointed to the place. IT seems probable Mr. PIPER will be re-nominated by the San Francisco Democrats for election to Congress. PIPER has done good service and he deserves the honor his party will confer upon him.

SENATOR BOOTH has intimated that he will take no public notice of his nomination for Vice-President by the greenback faction, but if elected and the sky does not fall he will serve.

Congressman Luttrell.

Our representative from the Northern district explains his position in an open letter to Governor Irwin, in which he announces himself as a candidate for re-election and defends his record. He credits himself with having procured an investigation of the Pacific Railroad, the Contract and Finance Company, the Postoffice Department and straw bids, and having arranged for the ventilating of the Mare Island and Indian rings, besides other services on the railroad question; defending his course with regard to the Texas Pacific and Southern Pacific on the ground that the interests of the latter road should be allowed to build East to meet Scott's line. Referring to the trade of Arizona Northern Mexico and Southern Colorado, he says: "Scott seeks to build a road from the East that he may rob our people of this trade, and transfer it to the Eastern merchants, mechanics and producers. Every dollar earned by the Central Pacific and other roads of Stanford & Co. is invested in building up the country and adding to the wealth and commerce of California. He therefore, as a choice of evils, since the land grant had already been made, advocated giving it to the Southern Pacific for such a distance as they might build East, but claims that his action in this respect is not at variance with his anti-subsidy principles. He adds a postscript as follows: "My action upon the Texas and Pacific Railroad Company is endorsed by the anti-subsidy Democrats and Republicans of both houses of Congress."

A Diabolical Misrepresentation.

A Washington dispatch of yesterday states that every member of the Senate has received by mail from San Francisco an anonymous pamphlet, arguing what is called the other side of the Chinese question in California, and elaborately denying all the allegations of the San Francisco anti-Chinese mass meeting of April 5th. Nothing is given as to the authors or publishers of the pamphlet, it being submitted simply in the name of the friends of right, justice and humanity. It contends that the Chinese number less than one-eighth of the population of San Francisco and one-thirteenth of the population of the State. It argues that Mongolian cheap labor is desirable. It challenges testimony to sustain the charge that the Chinese in California consist to any extent of slaves or criminals, and it generally argues that their presence is a blessing to California and the country at large.

"Ma! does pa kiss the cat?" "Why no! my son; what in the name of goodness put that in your head?" "Cos, when pa came down stairs this morning, he kissed Sarah in the hallway and said, 'That's better than kissing that old cat up-stairs, ain't it, Sarah?" And that, people say, is the reason why Smith stayed in the Charity Hospital for nearly two months.—*N. O. Pycayune.*

"What would be your notion of absent-mindedness?" asked Rufus Choate of a witness whom he was cross-examining. "Well," said the witness, with a strong yankee accent, "I should say a man that thought he'd left his watch to hum, and took it ou'n 'is pocket to see if he'd got time to go hum and get it, was a leetle absent-minded."

It has transpired that several butchers are in the habit of selling diseased pork and very young veal and the market inspector is now confiscating all such meats he can find.

Some time ago a contract was made between the Board of Supervisors and the City and County Surveyor, Humphreys, whereby he was to draw up a system of sewerage for the city. Humphrey last evening presented a report to the Board. Under the present system the sewers being down to the level of low water the tide rises and falls in them, choking their outflow and making them really nothing but elongated cesspools, choked with sewage matter and he makes suggestions as to the remedy of this evil.

The Health officer Dr. Meanes, announces that five cases of small pox had been reported to him since Friday. The first occured on Friday evening and two on Sunday.

The doctor remarked the almost similar character of the first three cases, and said that it looked as if there was something atmospherical in its nature, and that it emanated from Chinatown, where there are a number of cases.

A few days ago the Chinese merchants of this city sent a dispatch to Hong Kong, directing the merchants in that city not to ship any more goods on steamers or vessels carrying more than 100 passengers. A despatch was received in this city yesterday from Hong Kong announcing that out of 400 passengers that had engaged passage on the City of Peking but 106 were allowed to come.

Already a large number of delegates to the Democratic State Convention are in the city. Luttrell, of the 3d, Wigginton, of the 4th and Carpenter, of the 2d districts are said to have the inside track on nominations for Congress, while the nomination in the 1st is still an open fight between McDonald and Piper. The Evening *Post* has a long story in its afternoon edition, stating that McDonald offered 200 shares of Best & Belcher for twelve votes in the county committee from the Tenth District, and alleges that in order to fix the thing up, the delegation, who were friendly to Piper, so acted as to fasten the matter beyond contradiction. It is acknowledged that the fight between the two men is a monied one, and that proxies to the Congressional Convention are worth from $1,500 to $2,000.

In the case of Anthony Coolot vs. the C. P. R. R. to-day an affidavit was read from plaintiff, stating that when he gave his proxy to attend the annual meeting of the company it was a limited one, and intended only for voting for the election of officers. The further consideration of the case was postponed until Friday.

Killed for Four Dollars.

SACRAMENTO, May 22d.—An old man named W. W. Williams, who was engaged in mining at Rebel Hill, about three miles from Folsom, killed a Chinaman yesterday, in a dispute about a four dollar wash bill, by shooting him with a pistol. The Chinaman was the aggressor, having rushed upon Williams with a huge knife and the latter claims that he acted in self-defence.

Suicide of Ferris.

SACRAMENTO, 22d.—Judge B. F. Ferris, a prominent citizen of Oakland, committed suicide about five o'clock this morning by jumping from the upper deck of the steamer Amador into the Sacramento river as the boat was nearing this city. Before taking the fatal leap he tied his legs firmly together with a handkerchief and swallowed almost the entire contents of a three-ounce vial of laudanum. He left an affectionate letter to his wife and daughter at Oakland, announcing his intention of committing self-destruction. The letter also clearly indicated that the unfortunate man was insane.

Carl Schurz on the Coming Man.

CHICAGO, 22d.—Hon. Carl Schurz is in town to-day. In conversation with a Tribune reporter, he expressed very freely his views on the Presidential candidacy. He considers Bristow the best man for the Republican nomination because of his availability with all classes and parties, including the Independent Reformers, because he has been one of the most active prosecuters of official frauds and corruption, with which the great masses have no sympathy, and because throwing him out would cast more or less odium upon the party. He considers Charles Francis Adams an excellent choice, but thinks there is little probability of his becoming a candidate. He speaks of Blaine disparagingly as a candidate for the Presidency, because he lacks the record of a reformer which Bristow possesses. Mr. Schurz says the sentiment of the country is strong for reform, and that the party which wins must do it on the reform basis and candidate.

The Democrats of Texas gained at the late election 50,996 votes, ascompared with 1873, while the Radicals lost 1,220.

English Land-Holders.

The English "Doomsday Books" estimates the total acreage of England and Wales, exclusive of the metropolis and exclusive of common and waste lands, is 33,013,510. In England and Wales, omitting London, 3,874 owners hold 9,367,133 acres; 10,207 owners hold 22,013,208 acres; 42,524 owners hold 28,840,550 acres; 030,312 remaining owners, viz., those of one acre and under 100 acres, hold the remainder of the area, 4,172,960. In Scotland 24 owners hold 4,931,833 acres; 68 owners hold 7,957,395 acres; 320 owners hold 13,169,030 acres; 580 owners hold 14,-898,936 acres; 1,168 owners hold 16,-734,469 acres; 1,759 owners hold 17,-516,550 acres; 130,471 owners hold the remainder, viz., 1,371,144 acres. The return for Ireland has not yet been published. Thus it appears that 10,000 owners hold more than two-thirds of the whole of England. The next 20,-000 hold all but about 5,000,000 acres.

GRAND

Complimentary Testimonial,

—TENDERED TO—

Billy Donathan,

Prior to his departure for the Centennial Exhibition with the colts ECHORA and JOE HAMILTON, by his many friends, at the

Southern District Agricultural Society's Track,

—ON—

FRIDAY, MAY 26TH,

At which time Mr. Donathan will show his colts Echora and Joe Hamilton, both of which are entered to trot at the Centennial.

Also, Mr. Geo. Leihy has kindly volunteered to trot his colts Daisy C. and Tommy Gates.

And there will also be a friendly race between Mr. Mott's mare Maggie Mitchell and Mr. Leihy's horse Thomas H.

And many other races for the amusement of all who may favor Mr. Donathan with their presence upon that occasion, which will give the citizens of Los Angeles an idea and a good opportunity of judging of the merits of the horses on exhibition.

We earnestly hope there will be a large attendance of the many friends of our Pioneer Driver and Trainer, who has been so successful in developing such a creditable amount of speed in our colts as to warrant the sending of them across the continent to compete in friendly contest with the world's equine productions.

LET US GIVE HIM A BUMPER.

"Your eyes will jump out of their sockets, and your hair stand erect" at the astonishing low prices the Great Important ask for their clothing, boots, shoes and hats. *

Next Tuesday will be Decoration Day, and in honor thereof Wm. Crosby, the Department Commander for California, has issued a general order in which he says: "In places where posts of the Grand Army exist the services will be conducted under their direction. Those having the arrangements in charge are recommended to secure the co-operation of the public in a general observance of the day by requesting clergymen to preach appropriate sermons on the preceding Sunday, and by inducing as many as possible to take part in the exercises. Where there are no posts patriotic citizens are requested to aid in keeping alive the memory of those who gave their lives for our country, by strewing flowers upon their graves where such are found, by displaying flags at half mast, and by holding such public services as are practicable and fitting."

Last evening the anti-Chinese Club held its regular meeting in Hibernia Hall. There was a full attendance, and about thirty new members were admitted. The statement of principles was read, which provides that all members shall discountenance any illegal action in the matter of getting rid of the nuisance, but will use every endeavor to procure an amendment to or an abrogation of the Burlingame treaty which will secure the desired end. Remarks were made by a number of prominent citizens all of whom were enthusiastically received. In a day or two memorials will be circulated in our city for signatures, asking our Senators and members of Congress to use extra exertions to obtain the desired end if possible before the adjournment of Congress. The meeting was harmonious, and the society is now in good working order. The regular meeting will be held on Tuesday evenings at the same place.

Arch. B. McCaw, the enterprising "put and call" operator, has just issued a well printed table showing the variations of stocks in the last thirteen months. He furnishes them on application.

East Los Angeles.

Strangers coming to Los Angeles are impressed at once with the beauty of the surroundings of our city, the salubrity of the climate and the general prosperity of the city. Those who have been away for a twelvemonth, on their return can but recognize a development of attractive features of prosperity that can but convince that we do not boast when we claim that our abiding place is the most desirable location in the State for a home. San Francisco, the metropolis of the Coast, has its peculiar characteristics and attractions that no country town or city can furnish, but there are peculiarities connected with this locality that cannot be excelled. The material development of the city and suburbs is the most important feature of our being as a community that will demonstrate the real worth of our locality and opportunities in a practical point of view, both as regards a situation for residence and a district for profitable investment. During the last year five hundred houses have been erected, and about one million of dollars have been expended in general improvements. The result of this has been that the value of real estate in this vicinity has increased at least twenty per cent. These improvements have been extended throughout the city proper, and in addition we have a most tangible evidence of substantial prosperity in our midst by the rapid growth of East Los Angeles. While building and improvements have been extended Westward to an unprecedented extent, this portion of the city has made rapid strides. Its prosperity began about a year ago, and its growth has been surprising even to those who upon the spot have watched its development. The residences that have been erected and are now being built are of the best character, and in the laying out of the suburban site a thorough skill in regard to symmetry has been displayed. There is every facility for direct communication with the city proper by means of horse cars, and the entire section is well provided with a bountiful supply of water. In the design of the district and the style of the edifices all has been done to render this section a fashionable resort for home sites. This result has been accomplished under the management of Messrs. Barbee & Gates, and their efforts are sure now to receive a reward. In this section of our township there are two avenues, each one hundred feet wide, and the other streets sixty feet. When we witness the full development of the present initiatory movement in that locality, and the growth of the trees has matured, with the shrubbery in full growth, there will be no section in the State that will be so attractive. In a short time connection by rail with San Francisco will be completed, and our city will receive a new impetus in growth that we believe will demonstrate the good sense of those who have invested their capital here. During the last year in East Los Angeles at least one hundred houses have been erected, costing from one thousand to five thousand dollars, and at least twenty thousand dollars have been expended in laying down water pipes and setting out trees. Within another twelve months it is a positive certainty that about the machine shops a thriving community will spring up, and around this center there will be a prosperous development in manufactures as well as in agriculture. The outlook for Los Angeles is brighter than ever, and there can be no doubt as to the prosperous future of our county.

A New Enterprise.

The manufacture of paper is an important enterprise, and we are pleased to learn of the success of Captain Walker, in his paper mill in Soledad. He states that in less than a month he will have his 90-horse power engine at work crushing cactus and turning it into pulp for the manufacture of paper. For the present he will confine his operations to this branch of business. The cactus is stripped of its outside covering, and then carried to the mill, where the fiber is crushed and put through various processes until it is eliminated in the shape of pulp of a very superior kind. When he has completed his machinery for making paper, which will be in about three moths from the present time, he will export the pulp to Philadelphia, where it will be turned into paper. He has a contract with George W. Childs, of the Philadelphia *Ledger*, to deliver twenty tons of pulp per week. Mr. Childs, who employs a mill exclusively for the *Ledger*, will thus secure a supply of excellent material at a much cheaper rate than the same can be had in the East. The pulp will be baled and sent to San Fernando, whence it will be taken by car to the steamers and sent overland, from San Francisco to Philadelphia. In three months Captain Walker will be in position to turn out a very fine quality of newspaper. He has instituted a very important industry here, and we sincerely desire that his enterprise will meet with success.

New Watches.

Our popular jewelry dealer, Mr. L. W. Thatcher, is netermined to keep the lead in his business. He has just received a large stock of new watches of the latest styles and finest finish. A part of the assortment consists of the "International," a new and beautiful style just in the market and the "Southern Pacific," an extra finish intended to stand all kinds of usage and keep the best of time. The new style of case ranging from three to six ounce silver, from the American Watch Company are worth the attention of those seeking the rare and beautiful. Drop into Thatchers's and and lock at the new watches.

They have the best of talent at Wood's Opera House. *

The Santa Ana *News* states that on Wednesday and Thursday nights there was a severe frost West of the river, which has done serious injury to the corn, bean and potato crops. Mr. Roberts, who resides about four miles from Santa Ana, had about twenty acres of corn, which was over two feet high, almost entirely cut down, and there are others who have fared equally hard. We believe that it did not extend this side of the river; at least we have not been informed of any damage resulting therefrom.

The Aid Society of the Episcopal Church meet at the residence of Mrs. O'Melveny on Wednesday, May 24th. The presence of every member, particularly desired.

Grange Missionary in England.

From the Colusa Sun.

Struck with a desire to do something great, Mr. J. W. A. Wright of California got himself delegated from the National Grange as a missionary to carry the order into England. Just why it was so necessary to carry to establish the Grange in that country that it justified payment of the missionary's expenses we could never discover, but of course that gentleman, (who, by the way, possesses an extremely oily tongue) had a plausible sort of story manufactured for the occasion—fully as plausible perhaps as the one he published about two years ago persuading farmers that it was better for them to pay $21 a ton freight to Liverpool when they could get it for $15 or $16. But Mr. Wright went to England to carry the truth to the beni hted English farmers. He had perhaps never read that the Farmers' Clubs in England have been for many years far ahead of anything of the sort in this country; the greatest statesmen of the country often read papers before these clubs. The Mark Lane *Express* of April 10th has an article on Mr. Wright's mission, from which we infer that John Bull is not going crazy over our missonary. They have asked him for the practical good of his work, and he has said to them: "It would consume too much space to endeavor here to enumerate in full the many important results accomplished by our order in advancing the true interests of agriculture. Suffice it to say that its influence h s improved the cultivation of our soil, the economy and comfort of our homes, and has stimulated our farmers to more self-culture. It has secured us higher prices for our products, reduced prices for our supplies, lower rates of interest and insurance—thus, and other ways, making our farms more profitable financially. By our more direct trade with manufacturers, farmers frequently save in the purchase of a single maching many times the small amount of money which the moderate fees of the Grange cost him. We have helped to put down a large amount of corruption, and our work tends to purify our political atmosphere. And yet our work has just begun." The *Express* then remarks that the Grange seems to be "a sort of mutual improvement society as well as an agricultural supply association, and that in some undefined way it influences the money market in favor of borrowers, and purifies the political atmosphere—which, he adds, is a very desirable sanjtary work in America as well as in England." "But," says the editor, "the Grange only acts on politics indirectly, by the cultivation of a sensitive political conscience, we presume; for it disavows all active interference on political affairs." The editor then indulges in some very severe criticisms on the secret work, and observes that he has no doubt that the "Shepherdesses" and the "Cultivators" flirt a good deal, and that it is an excellent marriage mart.

An Extraordinary Fire-Proof Suit Invented by a Swede.

[From the Kolnische Zeitung.]

A few days since an exhibition of the new Oestberg fire extinguishing apparatus took place on the Linden strausse in Berlin in the presence of the Emperor, the Empress, the Crown Prince, the Grand Duke of Baden, the Swedish Minister, the Ministers of War and the Interior, and other distinguished persons. The inventor, who is a Swede named Oestberg, and Messrs. Brandt and Nawrocki, who had charge of the exhibition, were presented to the Empress before the experiments took place.

Captain Ahlstrom appeared in a peculiar looking costume, made of the Oestberg invention, and walked into an immense fire made of wood saturated with petroleum. The heat of the fire was so intense that no one else could approach within eighty paces without being burnt or scorched. The Captain, however, walked around in the glowing pile perfectly undisturbed, leaning on the burning wood, and finally quietly seating himself on the burning coals He remained in the fire for fifteen minutes, and on his coming out, every one pressed round to see how much he had heen injured. He was unharmed, and in spite of the Emperor's asseveration that he had seen enough of so dangerous an experiment, Captain Ahlstrom went again into the fiery oven.

On finally emerging, he took off the suit, and appeared clothed in red flannel. The Emperor said, "One must see this to form any just conception of it." He then asked Messrs. Brandt and Nawrocki about the patent in Prussia, and when informed that the application for a patent had been refused, expressed great surprise.

London literati were scandalized recently by a bit of drunken frenzy on the part of that erotic and erratic poet, Algernon Charles Swinburne. It was nothing less than a wholesale raid on the hats of the gentlemen of his club. It seems that when the gifted wooer of the Muse sought his tile, the pleasures of the evening being over, it was not to be found. Enraged by the prospect of going home bare-headed, he fell to kicking all the hats he could lay his hands to—or feet, rather. In a very short time they were hopelessly ruined, and had it not been for the large charity extended to the "eccentricities of genius" the irate poet would have been a tatterdemalion. As it was he was hustled into a cab and driven home, only, however, to wake up and find himself famous, thanks to newspaper enterprise. Was his offense venial or mortal? This grave question is now under consideration before the British court of public opinion.—*Ex.*

In the old town of Gulford, Connecticut, recently, one hundred and forty-three women, the oldest eighty-four years, cleared the village green with rakes. No men were allowed so help, and all men found on the green were fined. At noon all marched to Music Hall, to music of fife and drum, and ate a collation. In the afternoon they marched back, dug a hole and planted a Centennial oak tree.

Anti-Chinese meetings are all the go now, and ere many days this question of Chinese emigration must be settled. Get up a delegation, a party of ten, and send them to Washington; but in order to insure success our advice is let them all go to the Great Important, under the Lafayette Hotel, and get their clothing, as this is the place to get nobby and cheap clothing, even cheaper than any house in San Francisco. *

REASONS WHY
—THE—
REMINGTON FAMILY SEWING MACHINES
Are Superior to All Others.

FIRST—THEIR SIMPLICITY,

The use of them is very easily acquired, and any girl of ordinary intelligence is capable of keeping them in order.

SECOND—THE CONSTRUCTION

of the Machine is such that it may be run at a higher rate of speed than any Shuttle Machine now in the market. In factories where the rate of speed has been registered, over

1,000 Stitches per Minute

have been attained with ease.

THIRD—THEIR DURABILITY

being so strong in all their parts and fitted with great mechanical nicety, and being free from the harsh jarring movements and friction so common in inferior machines they will wear a long time without repair of any kind.

FOURTH—THEIR ADAPTABILITY,

By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather.

FIFTH—THEY HAVE NO ROTARY CAMS,

Cog-wheels or lever arms to make a noise, run hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE

Feed which may be raised or lowered at pleasure.

SEVENTH—ALL THEIR MOVEMENTS

are positive and they cannot be thrown out of time.

Manufactured by the Largest Manufacturing company in America, possessing a world-wide reputation in the manufacture of their firearms, they afford a guarantee of perfection in work and construction.

No other sewing machine has ever been introduced so quickly and met with such rapid sale as the

REMINGTON

It arouses the jealousy, opposition and persistent misrepresentation of the older Sewing Machine Companies through their agents, and even the old Singer Company, through its agents devotes the largest part of its advertisements to show that it is not an improved Singer, and that its calculations are upon a false basis.

"With malice toward none and charity for all," it will be the aim of the agent of the

Remington Sewing Machine

to afford to all an opportunity of testing merits with those of any other, and let them make their own selection.

SEWING MACHINES!

If you are wanting to buy a Sewing Machine, try a new Wilson and you will have no other.

A trial will convince the most skeptical of its superiority over all others, being adjustable in all its parts, every movement being positive, with a perfect tension and adjustable feed. It is simple, strong, durable and cheap, light and rapid running, doing all the different varieties of sewing from the finest fabric to the heaviest cloth or leather.

The latest improved Wilson will not ruf backwards, thereby avoiding the breakage of needles and thread and necessitating the removal of the goods from the machine while winding the bobbins as is the case with all other machines. HIGHEST PREMIUM AT THE WORLD'S FAIR, Vienna 1873. A very important improvement has lately been added to the Wilson. Call and see it before purchasing elsewhere. To try one is to buy one.

YOUNG MEN

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. SPINNEY will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character, which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full course of treatment $25. Send money by Post Office Order or Express, with full description of case. Call, or address,
